

**RICHARD BAYFIELD, BSc, MSc, CEnv, CEng, FICE, FCI Arb
CONSTRUCTION / DEVELOPMENT ADVISOR & ADJUDICATOR**

25 Davenant Road, Oxford, OX2 8BU

Telephone - 01865 311800, 07710 348395

Web Site: www.richardbayfield.com E-Mail: richard@bayfields.com

Independent Consultant since 1991, with over 40 years construction and development experience. Consultancy and Board assignments typically involve a combination of strategic advice, governance reviews, troubleshooting and implementation. These roles usually lead to delivery improvements for many organisations and projects. This track record of delivery followed 15 years at Honda learning how a Total Quality Management culture leads to greater predictability in outturn cost and programme.

Current roles included working at Board level with New College Oxford and the Church Commissioners on major project at Lambeth Palace. Previously supported University College London on several £multi biomedical science developments including the £100m+ Sainsbury Wellcome Centre.

Occasionally sits as an Adjudicator or Arbitrator on construction disputes. This role often shows how small problems can grow into major disputes, if the problem is not resolved when first identified. Further key learning from disputes experience is that good governance from the outset reduces the risk of disputes.

- Member of Construction Minister's sounding board of 6 "key industry figures" appointed to assist the DTI (BEIS) with proposed changes to construction industry legislation (2006/10).
 - Member of various Project Boards in both executive and non-exec roles.
 - Member of Council (2019), Trustee and Carbon Champion (2021) – Institution of Civil Engineers
 - Member of London 2012 Olympics and Heathrow Terminal 5 Dispute panels / boards.
 - Former Chairman (2003/4) and Honorary Member of Society of Construction Law (2006). Member of the SCL Delay and Disruption Protocol Drafting Committees (2002 & 2017).
 - Joint author of DTI sponsored report analysing 40% construction savings made by Honda when developing its 600-acre site at Swindon (2001/2002).
 - Three times British Construction Industry Award (www.bcia.org.uk) winner as Client representative – 2016 – Sainsbury Wellcome Centre at UCL, 2013 – Bishop Edward King Chapel, Cuddesdon Oxford and 2002 – Honda New European Plant, Swindon.
 - One of 18 Contributors to "Global Construction Success" – publisher Wiley 2018
-

Consultancy Work (1990 - 2022) and Client Organisations (* - part time roles)

Key roles typically comprise project board membership, either as Project Director / Manager or as Independent Advisor. Key skill sets include Troubleshooting, Client Leadership, Development, Governance, Strategy, Collaborative working, Procurement, Risk, Coaching, Contracts, Dispute Resolution/Avoidance, Adjudication, Innovation, Sustainability and Team building.

New College Oxford – 2018/22 (ongoing)* - <https://www.new.ox.ac.uk/our-new-heritage>
